at 10 a.m., all the members being except Mr. R. D. Jordan, who dened to serve on account of business.

Upon motion of Mr. A. B. Morrison, Mr H. Gronauer was elected Secretary.

The charges as arranged in the specifications were then read by the Secretary, whereupon it appearing that new specifications were added which were not embraced in the original resolutions, much discussion ensued as to the authority of the committee to en-tertain such specifications, Ed. Shaw citing the Star route investigations as a precedent n favor of the committee's power. NOVEL LEGAL PROPOSITION.

THE INVESTIGATION

Mr. H. Gronauer moved that the commithould be required to bring his witnesses and lisprove the chr ges. Mr. Murray's counsel uggested that it would probably be more ormal for the prosecution to first prove their ase; but Mr. Gronauer insisted that as the charges had been signed by a responsible individual, the onus was thrown on Mr. Murray to prove that they were not true. Finally, however, after a full discussion, the committee regarded the presumption in favor of the innocence of the accused. After author-izing the chairman to employ a stenographer, the committee adjourned until Friday, at

New York, June 8.—The Public says: The business transacted in May exceeds that of any other month in the history of the country. About almost every other evidence of the commercial situation there may be deception or misjudgment, but the payments actually effected through the Exchanges at all the centers of trade make their own unerring record and tell their own plain story. Last week we gave the figures for New York—the largest monthly return in the history of the Clearinghouse, with exchanges of \$3,094,189,687—after deducting double the value of the stocks sold—an amount larger by aine per cent, than that of any previous month. This week we have the complete returns from other cities. The aggregate for May at all the cities outside of **NEVER** of Hats at this singe of the season. Never have we been willing to sell them so cheap. In addition to other reductions we show 2000 white Rough-and-Ready Hats, including the famous Porcupine Scoop and the Spike Scoop, and many other Rough and Fancy Hats and Bou-nets, all in one lot, at the ridiculous

figure of the complete returns from other cities. The aggregate for May at all the cities outside of New York is \$1,230,464,280. With all the annual settlements, which swell the returns for January very largely at minor cities, the aggregate in that month was only \$1,208,000,000. The largest previous return for any month, that of December last, was \$1,229,243,680; but special causes swelled exchanges at some of the cities in that month. The transactions at New York, exclusive of stocks, were only \$2,571,000,000. The exstocks, were only \$2,571,000,000. The ex-changes for May and for last week, ending June 4th, are shown in the following table:

Week. \$919,391,809 \$92,862,818 \$96,670,422 \$55,429,648 \$19,978,600 \$17,082,093 \$15,000,783 \$9,403,723 \$9,050,010 \$7,293,425 \$7,245,236 \$3,295,500 \$2,400,000 \$2,119,113 \$1,928,296 1,002,312 ...\$1,229,005,971 \$6,114,631,40 Outside of New York \$39,614,162 \$1,230,464,280

There is no decrease in transaction month at a single city, and yet in 1880 May was one of the remarkably large dealings. Outside of this city the increase is 26.9 per cent, and it will be observed that the increase in the exchanges at New York, less the doubt in value of stocks sold, is still larger—no tess than 33.5 per cent. Nor do transactions for the first week in June appear unfavorable. Outside of New York the increase is 37 per cent larger than for the past worth. per cent, larger than for the past month.
